

Alarm System

deter | detect | monitor | respond™

SA66 Wireless High-power Siren

- * 110dB deterring siren
- * Work with auto-dial intruder alarm system
- * UPS-12V power supply optional

- * 360° rotatable antenna
- * Low power LED indication
- * Wired magnetic contact interface could be connected with other wired detectors
- * Transmitting distance: >300m (open area)

RC80

Wireless Remote Control Keypad

- * Vertical wireless keypad with modern design
- * Easy installation and operation
- * LED light behind the button, convenient for operation in darkness
- * Enlarged keypad button
- * Password validation enhances the security of system * Power supply: 2 X 12V battery, long battery life * Different users' operation time limit setup freely * Transmitting distance: >300m (open area)
- * Has got the national patent for technology and appearance

MD52 Wireless Magnetic Door Sensor

- * Long wireless signal transmitting distance
- * Wired magnetic contact interface could be connected with other wired detectors
- * Low power LED indication
- * Transmitting distance: >100m (open area)

MD10 Long Distance Wireless Magnetic Door Sensor

- * 360° rotatable antenna
- * Low power LED indication
- * Wired magnetic contact interface be connected with other wired de
- * Transmitting distance: >1000m (open area)

MD30 Wireless Magnetic Door Sensor
